Profile

Frontend Developer with + 1 years of hands-on experience building responsive and modern web applications using HTML, CSS, JavaScript, React and Next. Worked on freelance projects for real clients, focusing on delivering clean UI, good performance, and smooth user experience. Comfortable turning ideas into functional interfaces and solving real-world frontend challenges. Passionate about continuous learning and building reliable, user-friendly web solutions.

Experience

Frontend Developer, Freelance 05/2025 – 06/2025 Remote

- Developed the frontend of taqat_shabab [🔗](#) a private company project using React, HTML, CSS, and JavaScript
- Built a responsive, mobile-first interface with dynamic content features such as pagination and filtering
- Collaborated with the client to implement updates and improve UI/UX based on requirements (restricted access project, signup page only publicly available)
- Github : Maathir_Repo [🔗](#)

Frontend Developer, Freelance 06/2025 – 01/2026 Remote

- Contributed to frontend development in a cross-functional team (Backend & AI)
- Built responsive and scalable UI components using modern frontend practices also implemented smooth UI animations to improve user experience
- Worked with clients and team members to deliver a user-focused interface aligned with RAG-based architecture
- Github: Digital_intelligence_Repo [🔗](#)

Education

Faculty Of Information and Computer, Scientific Computing, 2020 – 2024
Ain Shams University Cairo, Egypt

Skills

Front-End

Html, css, bootstrab, javaScript(Es6+), Reactjs, Nextjs

Programming Languages

Python, JavaScript

Databases

PostgreSQL, SQL Server

Version Control

Git, GitHub

Programming & Logical Concepts

Object Oriented Programing (OOP), Data Structures & Algorithms

Courses

Frontend Web development Using React, *Route Academy*

09/2025 – 02/2026

- Completed Frontend Development Diploma covering HTML, CSS, JavaScript, React and NextJs.
- Built responsive, real-world frontend projects using modern development practices.
- Gained hands-on experience with Git, APIs, and component-based architecture.

Full Stack Web Development Using Python, *Information Technology Institute (ITI)*

12/2024 – 04/2025

Banha Branch

- Built responsive, user-friendly web applications using React, Django, Bootstrap, and RESTful APIs, with a focus on clean UI and functionality.
- Gained practical experience in full-stack development, including authentication, database integration, and version control with Git/GitHub.

Projects

Enhancing colonoscopy diagnose using AI, *College Graduation Project - (Excellent Degree)*

- Tech Stack: Machine Learning, Python, Computer Vision, Flutter
- Developed a fully responsive Flutter-based application that integrates AI-powered image analysis to assist in diagnosing some colon diseases. The application utilizes computer vision and machine learning models to detect abnormalities in colonoscopy images, aiding medical professionals in early diagnosis.

Planora_tracker, *FullStack web application- ITI Graduation Project*

- Tech Stack: React, Django, PostgreSQL, REST API
- Built a productivity and habit-tracking app with a custom calendar UI in React, offering features similar to Google Calendar. Developed secure RESTful APIs with Django and PostgreSQL to manage tasks, habits, and user data.
- Github: [planora_Tracker_Repo](#) 

My Shop App, *E-Commerce Web App*

- Tech Stack: React.js, Vite, JavaScript, Bootstrap, API fetching (Axios or Fetch)
- Developed a fully responsive e-commerce application using React and Vite for fast performance. Implemented product listing, filtering, and a dynamic shopping cart. Styled the UI using Bootstrap and tailwind css for a clean and modern design.
- GitHub: [ShopHub_Repo](#) 
- Live Demo: [ShopHub](#)
